Index to Mechanical Engineering

Volume 50, January—December, 1928

(D denotes Discussion; C, Correspondence; C. T., Conference Table)

A

A.A.A.S. meets in Nashville.....
Aarau (Switzerland).....
ABBOTT, W. L. The modern fire engine (D).....
Recent improvement in the manufacture of flat glass (D).....
Abbreviations, scientific and engineering symbols and.....
Acceleration of water flow through an orifice (C. T.).....
Accumulators, steam.....
steam, electric boilers and.....
steam, thermal storage, high-pressure, Kisselbach.....
Accupile storage battery.....
Acids, fatty.....
ACKERET, J..... 549, (C)
ACKERMAN, A. J. A water-level gage of the long-distance recording type (D).....
Acrolein.....
ADAMS, T. S. The relation between industry and taxation.....
Adaptability, fundamentals and, editorial.....
A.E.G.-Hesselman engine.....
new type of solid-injection double-acting two-stroke oil engine.....
powdered-coal locomotive.....
Aero engine, Armstrong-Siddeley Leopard.....
Aerodynamics, kinematographic studies in.....
Aeronautical engines, commercial, German.....
Aeronautical meeting, Detroit, June 28-30, 1928
Aeronautics, Daniel Guggenheim fund for the promotion of, editorial.....
plumbing troubles.....
progress in.....
aeroplane form.....
A.E.S.C. changes procedure.....
further develops its procedure.....
to change its name and constitution.....
William J. Serrill, elected chairman.....
Year book shows American industries making great strides in standardization.....
Aggregates, slag, coke breeze, and clinker as.....
Agriculture, mechanization of.....
power in.....
remodeling (editorial).....
Aileron, DeHavilland differential.....
Air conquest (editorial).....
gas and steam metering.....
in solution in household water system (C. T.).....
jets as aid to smoke abatement (C. T.) 327, power.....
rights.....
standard, 1905, internal-combustion engines
water, oxygen, and carbon dioxide in the corrosion of iron.....
motorcycle of the.....
Aircraft carrier, British, "Courageous".....
carriers, U. S.
control of, by supplementary avettes or alulas.....
safety devices for, flying dangers and.....
the design and supply of naval.....
Airel Diesel engine.....
Airplane contest (editorial).....
The rocket (editorial).....
Airplane, British military.....
Airship-hangar-door trucks, design of (C. T.).....
Airships, data on.....

B

INDEX TO MECHANICAL ENGINEERING, VOL. 50

Bauer-Wach system (combination of steam engine and turbine).....
 BEACHAM, P. E.....
 Beacham, Hele-Shaw, variable-pitch propeller.....
 Beams, curved, and crane hooks.....
 Beardmore-Caprotti valve gear.....
 Bearing, "attitude" and "eccentricity" of.....
 cylindrical, flooded, oil film in, distribution and thickness of.....
 Bearings, ball, in jib crane and trolley.....
 roller, on conveyors.....
 "Beaver" class cargo liners.....
 BECKER, A. C. The effect of running in on journal-bearing performance (D).....
 Behrend, B. A. Plate-steel rotor for an electric generator (D).....
 BELL, MAURICE DWIGHT. Power in the flour mills at Minneapolis.....
 Belt face conveyor, Dacol.....
 Benard-Karman alternate whirls (flow of liquids).....
 Bends, expansion pipe, stresses and reactions in.....
 Benson high-pressure boilers.....
 Bergius coal-hydrogenation process.....
 process alcohol.....
 Berlin Machine Construction Co.
 BERNARD, H. B. Progress of the natural-gasoline industry for 1926-1927.....
 Bessemer medal (editorial).....
 BETANCOURT, G. Airships (Progress in aeronautics).....
 BILLMYER, C. D. Education and training as applied to the engineer (D).....
 Binary mixture in steam-vapor engines.....
 Biography, a dictionary of (editorial).....
 Birmingham, carbonization conference at.....
 BISHOP, F. L. Education and training as applied to the engineer.....
 Bismuth and cadmium compounds.....
 BLACK, ARCHIBALD. Air transport and aerial service (Progress in aeronautics).....
 Bleeding, stage (turbines).....
 BLUM, W. Mechanical applications of chromium plating.....
 Boats, flying, 100-ton floating dry dock for.....
 Boiler Code Committee, A.S.M.E. work of the 85, 248, 329, 402, 485, 564, 726, 871, construction code, revisions and addenda to 89, 562, control, automatic, in Czechoslovakian plant corrosion (C. T.).....
 dished heads, standardization of, in respect to internal pressure.....
 efficiency diagram, reflex-ordinate, low-range.....
 efficiency, eighty per cent, with low plant factor.....
 feedwater session.....
 feedwater treatment, sodium aluminate for (C. T.).....
 Lancashire, modern possibilities of.....
 plate, embrittlement of.....
 practice, present trend in.....
 "National" water-tube.....
 room labor (C. T.).....
 solid-forged drum in.....
 steam, 1700-lb.-pressure, Löffler.....
 submerged-combustion.....
 Swedish.....
 tubes, heat transmission through.....
 water-tube, British, installation in small space.....
 water-tube, new form of.....
 water-tube, vertical, Dürk.....
 Boilers, blowdown, cost of.....
 drumless or "series".....
 electric, and steam accumulators.....
 for superheated steam.....
 high-pressure (editorial).....
 high-pressure, Benson.....
 high-pressure, losses introduced in.....
 high-pressure steam.....
 Lancashire, powdered-coal burning in.....
 "live-banking".....
 marine, powdered coal to.....
 scale accumulation in, prevention of.....
 Boilers, stationary, Swiss regulations for.....
 steam, a suggestion for rating.....
 superheated-steam.....
 water-tube, high-pressure.....
 Bolts, plow.....
 BONNETT, L. B. Competitive purchasing and evaluation of proposals for power-plant equipment.....
 Book Reviews and Library Notes.....
 99, 181, 260, 335, 414, 492, 575, 655, 733, 774.....
 Boring, diamond, of connecting rods.....
 Borium as a substitute for diamonds.....
 "Borneo" (triple-expansion-engined ship).....
 Börner triple-chamber internal-combustion engine.....
 BORZIG, A.
 BOSTON, ORLON W.
 BOSTOPH, F. D.
 Boulder Dam commission.....
 BOURKE, N. T.
 BRAGG, G. A.
 BRAMSON, M. L.
 Bramson-Savage aircraft anti-stall device.....
 Brass and copper pipe, bursting pressures of.....
 rod and castings, machining properties of.....
 BREMER, EDWIN.
 BRETT, ROY C. Progress in the iron and steel industry.....
 Brickmaking plant, note on.....
 Brine, flow in pipes.....
 Briquetting, partial dehydrogenation of fine coal to permit of.....
 British and American engineers (editorial).....
 military planes.....
 BROGGI, J.
 Bronze, aluminum-nickel.....
 BROOK, CHARLES H. Some common delusions concerning depreciation (C).....
 BROOKS, H. W.
 BROWN, J. S.
 BROWNLEE, DAVID.
 Brüden (process steam).....
 BRYAN, R. M. Some common delusions concerning depreciation (D).....
 BRYDON, H. BOYD. Some economic factors in power-station design.....
 Büchi system of supercharging Diesel engines.....
 Buda full-Diesel engines for industrial and marine fields.....
 BUDD, RALPH. The mechanical engineer's part in increasing railway efficiency.....
 Budgetary control, some essential principles for.....
 Building tools, control of costs of.....
 Burden water wheel, the (C).....
 Bureau of Construction and Repairs of the Navy Department.....
 Bureau of Labor, U. S., statistics.....
 Bureau of Standards, U. S., report on progress of steam research.....
 work on friction and lubrication.....
 BURLINGAME, LUTHER D.
 Burner, pulverized-coal Holbeck.....
 Bursting pressures of brass and copper pipe.....
 Business executives, the making of.....
 Butler 60-in. draw-cut traveling-head shaper.....
 BUTTERWORTH, A. C. Use of electric power in iron mining.....
 C

Cable, and chain, wrought iron, causes of failure, note on.....
 Cadmium and bismuth compounds.....
 Calcium chloride solutions.....
 CALDWELL, CY. 713, 786

Calumet drumless boiler.....
 Camera, time-stretching.....
 Caminex Fairchild, engine fuel tests of.....
 CAMMEN, LEON. Modern quantum theories 703, 775
 CAMPBELL, JAMES A. Progress in textile mechanical engineering.....
 CAMPBELL, LESTER. Progress in lubrication research (D).....
 CAMPBELL, THOMAS D. The American farm problem.....
 Camera, a time-stretching.....
 Capacitors in the distribution feeders, correcting power factor with.....
 Capillarity, theory of.....
 Caprotti poppet valves, American locomotive with.....
 valve gear, Beardmore.....
 Carbon dioxide, water, air, oxygen and, in the 783
 corrosion of iron.....
 Carbon vs. alloy steels (editorial).....
 Carbonization, at Fuel Research Station.....
 conference at Birmingham.....
 low-temperature (book review).....
 Carbonizing coal to produce oil.....
 Car, refrigerator, iceless, silica gel.....
 Cargo liners, fast.....
 Carriers, aircraft, U. S.
 Cars, 1929, mechanical progress in.....
 CARTER, B. C.
 CARTV, JOHN JOSEPH receives John Fritz medal.....
 Casein, plastic produced from.....
 Cast iron, aluminum.....
 flanged fittings, notice of change in standard.....
 ards for.....
 gears, critical speeds of (C. T.).....
 long-turn sprinkler fittings.....
 pipe (250 lb.) flanges and flange fittings.....
 pipe, McWane method of making, note on.....
 Cast irons, aluminum.....
 Casting pipe centrifugally in green-sand molds.....
 permanent-mold, by vacuum.....
 Castings, centrifugal, for Diesel engines.....
 gray-iron, heat treated.....
 seasoning (C. T.).....
 shallow, finishing ways on by grinding.....
 CASTLE, D. W. Apprentice training for draftsmen (D).....
 Catalysis of auto-oxidation negative.....
 "Caterpillar" drive, conveyor.....
 "Cavendish" (aircraft-carrier).....
 Cavitation phenomena in hydraulic turbines.....
 Cement retardation, anhydrites in, note on.....
 Centralized control for safety (editorial).....
 Central station, Ivry, France.....
 station, one-man-operated.....
 station operation, what is the limiting temperature in.....
 station power session, 1927 annual meeting.....
 station use of pulverized coal, progress in.....
 Centrifugal casting of pipe, in green-sand molds.....
 castings for Diesel engines.....
 oil pumps.....
 pump output and characteristics.....
 pump using fluids other than water.....
 Chain and cable, wrought-iron causes of failure of, note on.....
 conveyors, pulsation in (C. T.).....
 Challenge of industrial Germany, the economic.....
 Channel, open, law of flow of water in.....
 Chemical nitrogen production, growth of, note on.....
 CHRISTIE, ALEXANDER GRAHAM. British and American engineers (editorial).....
 The peak-load problems in steam power stations.....
 Chrome-aluminum cast irons.....
 Chromium plating, mechanical applications of.....
 Cindal aluminum alloy.....
 Circular saws, cracks in (C. T.).....
 Citroën differential-stroke engine.....
 Civil Engineers, Institution of, celebrates centenary of charter.....
 650

D

Clapeyron-Clausius equation..... 318
 CLARK, MONTAGUE A. Foreman training (D).
 Clausius-Clapeyron equation..... 318
 Clearing the international barrier (editorial)..... 331
 CLERK, SIR DUGALD..... 236
 Cleveland's survey of her industrial water supply (editorial)..... 408
 Clinker, slag and coke breeze as aggregates..... 946
 Cluster mills, four-high..... 711
 Coal, a raw material (editorial).
 carbonizing to produce oil..... 320
 conveyors, pneumatic..... 951
 -dust Diesel engine..... 710
 dust to the cupola..... 855
 fine, partial dehydrogenation of to permit of briquetting..... 547
 fuel, recent developments in..... 546
 industry in the Ruhr, rationalization of..... 546
 industry, powdered coal and the..... 546
 mine, sinking of by freezing process..... 546
 mines, mechanical engineering in..... 546
 mines, mechanization of..... 546
 -oil amalgams, colloidal fuels and..... 546
 oils, oil-engine performance on..... 546
 one pound per indicated horsepower per hour..... 546
 powdered, and the coal industry..... 546
 powdered, annual consumption of..... 546
 powdered, application to marine boilers..... 546
 powdered, burning in Lancashire boilers..... 546
 pulverized, progress in central-station use of..... 546
 pulverizers, unit, practice (C. T.)..... 546
 total distillation on Stein-Tully system at Versailles..... 233
 Coals, middle-western, stoker operating efficiencies with (C. T.)..... 326
 Coated abrasive products, simplified practice recommendation for adopted..... 630
 Code on instruments and apparatus..... 630
 COES, HAROLD VINTON. Some essential principles for budgetary control..... 630
 Cohesion..... 630
 Coining and forging press..... 630
 Coke-breeze concrete..... 630
 -breeze, slag, and clinker as aggregates..... 630
 industry and the gas industry..... 630
 -oven gas..... 630
 -pig iron without (editorial)..... 630
 Coking, hydrogen process, new..... 630
 College tuition, increased (editorial).
 why go to (editorial)..... 572, (C)
 Colloid Mill Corporation, U. S. mill, Oderberg..... 639
 mills..... 639
 Colloidal fuels and coal-oil amalgams..... 639
 prevention of scale accumulation in boilers..... 639
 COLOMBI, CHI..... 639
 Colorado River problem..... 639
 Combustibility of various kinds of coals..... 639
 Comparison of powdered-fuel- and hand-fired-boiler operating results (C. T.)..... 639
 Competition, the new..... 639
 Competitive purchasing and evaluation of proposals for power-plant equipment..... 639
 Compressor, mercury (refrigerating machine).
 rotary, "Crescent" type..... 639
 rotary, ethyl chloride..... 639
 speed, effect on refrigerating capacity and efficiency of household machines..... 639
 Compression, vapor, and steam-pressure transformation..... 639
 CONANT, W. S. Principles of apprenticeship organization (D)..... 639
 Concentric-arch dam..... 639
 Concerning certain statements made in the Society's publications (editorial)..... 639
 Concrete, coke-breeze..... 639
 -sulphur compounds, effect on..... 639
 Condensate, deaeration of..... 639
 Condensation products, manufacture of (C. T.)..... 639
 Condenser, fish found in..... 639
 the most economical (C)..... 83
 tubes, A.S.M.E. special research committee..... 410
 -water conditions, bad, geographical location of..... 171
 Condensers, ammonia, heat transfer in Conference Table, The..... 169
 81, 175, 250, 326, 404, 486, 568, 644, 722, 803, 867, 962
 Connecting rods, diamond boring of..... 962
 Consumers Company, Kalamazoo, Mich., power plant of..... 333
 "Conte Rosso" (aircraft carrier)..... 333
 Continental Motors Corp. shops, machine arrangement in..... 397
 Continental Motors Corp. shops, machine arrangement in..... 396
 Continuous rolling, backed-up mills for sheet rolling, energy consumption in..... 476
 Control panels, individual, or "cubicles"..... 481
 Conveyor "caterpillar" drive..... 481
 Dacol belt face..... 481
 Conveyors, coal, pneumatic..... 481
 chain, pulsation in (C. T.)..... 481
 Conveyors, coal, pneumatic..... 481
 roller bearings on..... 481
 slag, pallet wheels of..... 481
 Conveying medium, furnace gas as (C. T.)..... 481
 Cook-Schliessky gyroscope..... 481
 Cooling, evaporative..... 481
 generators..... 481
 Cooperative industrial research (editorial).
 research in oil-engine power (editorial)..... 481
 Copper and brass pipe, bursting pressures of..... 481
 tubes, seamless, electrolytic manufacture of..... 481
 Correspondence..... 481
 .83, 173, 246, 487, 567, 643, 724, 804, 869, 964
 Corrosion of iron by water, air, oxygen, and carbon dioxide..... 326
 of metals, investigation with a thermobalance..... 630
 Cost of blowdown of boilers, the..... 630
 Costs of diamond-shaped powdered-coal furnaces of building tools, control of..... 630
 rolling, in various countries..... 630
 Cotton, spinning long-draft (C. T.)..... 630
 -textile industry, manufacturing costs in the (C. T.)..... 630
 "Courageous" (British aircraft carrier)..... 630
 Crane hooks, curved beams and..... 630
 jib, and trolley, ball bearings in a..... 630
 Crankshaft stiffness in torsion, formula for..... 630
 Creep of materials..... 630
 "Crescent" type rotary compressor..... 630
 CROCKETT, C. B. Economic aspects of the shipment of materials on skid platforms..... 630
 CROFT, HUBER O..... 630
 CROSS, C. W. Apprentice training for draftsmen (D)..... 630
 Principles of apprenticeship organization (D)..... 630
 CROWLEY, JAY R. Principles of apprenticeship organization (D)..... 630
 CROZIER, H. W. The Colorado River problem (D)..... 630
 CRUIKSHANK, J. W. Recent improvements in the manufacture of flat glass (D)..... 630
 "Cubicles," or individual control panels..... 630
 CUMMINGS, J. L..... 630
 Cupola, influence of addition of coal dust to..... 630
 Currency, paper, U. S., increasing the durability of..... 630
 Cut-off, limited (locomotive)..... 77
 Cutting metal, "Widia"..... 77
 metals, American research in (editorial)..... 635
 metals and old machine tools (editorial)..... 635
 steel under water..... 635
 tools, "Stellite"..... 635
 Cycle engine, Atkinson..... 791
 internal-combustion-engine, five-stage..... 791
 Cyclic process of solution..... 791
 Cylinder-liner, Diesel-engine..... 946
 walls, transfer of heat in..... 946
 Czechoslovakian power plant, automatic control in..... 398
 shop practice, observations on..... 82
 714

Dacol belt face conveyor..... 954
 Dahlstrand, H. The effect of running in on journal-bearing performance (D)..... 531

 DREN, W. E., JR. Some common delusions concerning depreciation (D)..... 620
 Defour tidal-power scheme..... 474
 DeHavilland differential aileron, concerning the..... 246
 Degrees, baccalaureate (editorial)..... 252
 Dehydration of manufactured gas..... 320
 Dehydrogenation, partial, of fine coal to permit briquetting..... 855
 Democritus, back to (editorial)..... 729
 DENHAM, A. F..... 711
 DENTON, JAMES EDGAR..... 808
 DEPISTOYE, H..... 546
 Depreciation, some common delusions concerning (C)..... 373, 617
 Design, super-conventional (editorial)..... 807
 D'ESPOSITO, JOSHUA..... 243
 DE REMER, J. G..... 169
 DEVAUX..... 471
 Development at Louisville meets unusual high-water conditions..... 828
 of mechanical equipment for petroleum production..... 41
 of transportation of crude oil in 1927..... 44
 Diamond boring of connecting rods..... 633
 -shaped powdered-coal furnaces, costs of..... 782
 Diamonds, borium as a substitute for..... 629
 DIBOVSKY, VICTOR, CAPT..... 629
 DIEMER, HUGO. Foreman training (D)..... 313
 Diesel engine, Airel..... 948
 engine, centrifugal castings for..... 165
 engine claimed not economical..... 69
 engine, coal-dust..... 711
 -engine cylinder liner..... 551
 engine, marine, Sulzer, 7000-h.p..... 551
 engine, the powdered-coal (editorial)..... 806
 engine, Winton airless-injection, high-speed engines discussed at State College..... 474
 engines, economic field for small and medium-size..... 651
 engines, experimental..... 550
 engines full, Buda, engines for industrial and marine fields..... 550
 engines in motor vehicles, note on..... 394
 engines, light-weight..... 455
 engines, locomotive, for railway traction..... 950
 engines, supercharging..... 481
 engines, supercharging, Büchi system of..... 804
 locomotive, German..... 631
 locomotives. *See Locomotive, Diesel*..... 953
 fuel-oil specifications (editorial)..... 728
 DIETZ, CARL F. Foreman training (D)..... 313
 Dimensional similarity, effect on steam nozzles..... 707
 DINGER, H. C. (C)..... 83
 DINSKALEN, F. WINTERHOFF..... 716
 Disacryl..... 947
 Dow, ALEXANDER. Some common delusions concerning depreciation (D)..... 617
 The relation between taxation and industry (editorial)..... 176
 Drafting-room light exposure (C. T)..... 83, 251
 Draftsmen, apprentice training for..... 461
 Drawings, ownership of (C. T)..... 405, 645
 Drops, oil, expansion of..... 712

Drum, boiler, solid-forged.....
 Drumless or "series" boilers.....
 Dry dock, 100-ton floating, for flying boats.....
 DUBRUL, ERNEST F. Some common delusions concerning depreciation 373, (D)
 DUPRAISE, CHAS.
 Duhring's rule.....
